Introduction to eTextiles

Create interactive costumes and handmade electronic toys

because adults need playtime too

Light it Up!

Learn about "soft circuits" by sewing (washable!) LED lights into fabric! Create a cute little plushie that lights up, or bring an article of clothing to illuminate.

Monday, April 8, 6:00 pm

Make Some Noise!

Create a wearable musical instrument controlled by fabric sensors sewn into an article of clothing, or create your own singing sock puppet.

Monday, April 22, 6:00 pm To reserve your spot: http://tinyurl.com/bs2ofov

Sewable

Microcontrollers

Make your clothes and costumes interactive! Learn to program a tiny sewable chip to respond to input, play sequences, and much more.

Monday, May 6, 6:00 pm

To reserve your spot:
